Search in the archive

1. Enter a word in the search box in the top menu, e.g. "upgrade".
 - a. The search result shows only articles in the current published space.
2. Open Filter by SPACE and set Search archived spaces
 - a. The search result will include articles in the archived space and the current published space.
 - b. Articles in archived spaces start with the release version, e.g. "20.06 – Upgrade..."

You can also search for a specific version, go to the product version and see instructions there.
