

# Nexus Smart ID

Nexus Smart ID provides solutions for physical and digital identities for the modern workforce as well as PKI-based identities for IoT devices.

## Smart ID Workforce

Nexus Smart ID Workforce provides easy-to-use modules to issue, manage and use trusted employee identities in the form of digital smart cards for mobile devices and physical cards.

## Smart ID IoT

Nexus Smart ID IoT is a flexible and scalable certificate authority (CA) software, which enables you to register, issue and manage electronic identities for devices in typical IoT use cases.
