

# Nexus Documentation

## What are you looking for?

Full words or wildcards are required, for example, type 'auth\*' to find authenticators, authenticate, authentication, etc. To search for parts of words, use the search field in the top bar.

### Nexus Smart ID

Nexus Smart ID provides solutions for physical and digital identities for the modern workforce as well as PKI-based identities for IoT devices.

### Smart ID IoT

Nexus Smart ID IoT is a flexible and scalable certificate authority (CA) software, which enables you to register, issue and manage electronic identities for devices in typical IoT use cases.

### Nexus GO Services

Nexus technologies are available as services through [Nexus GO](#). The services enable you to focus on your core business, without having to worry about hardware, dedicated staff or maintenance. You can test many of the services for free before deciding to buy, and you get real-time reporting of your usage.

## ID06

For more information on how to register organizations and users and ordering new ID06 cards for secure access to construction sites in Sweden, see [ID06](#).

## Products

For technical documentation, descriptions, tutorials, videos, etc on Nexus products, see [Products](#).

## Support

For information on technical support of Nexus solutions, products, and services, see [Support](#).

## Nexus Cidron

For technical documentation and videos on the Nexus Cidron RFID reader, see [Nexus Cidron](#).
