Nexus Card SDK

[Nexus Card SDK](#) is a set of software development tools that offers functionality for designing, printing and encoding access cards, smart cards and ID badges.

Nexus Certificate Manager

[Nexus Certificate Manager](#) (CM) is a flexible and scalable certificate authority (CA) software portfolio, including OCSP responder (Online Certificate Status Protocol) and a wide range of enrollment protocols, which enables you to issue and manage electronic identities (eIDs) for people, infrastructure, and things.

Nexus Check In

[Nexus Check In](#) is a web-based visitor system, which is scalable and flexible. It has an easy-to-use interface for self-registration.

Nexus Cidron

The [Nexus Cidron](#) reader family's compatibility with secure RFID-technologies incorporated in a robust, yet timeless design, makes them ideally suited for both indoor- and outdoor installations in all kinds of physical access control applications.

Nexus Hybrid Access Gateway

[Nexus Hybrid Access Gateway](#) is a software-based authentication and federation product used to enable secure access to digital services – no matter where those services or users are located.

Nexus Personal

Nexus Personal includes server and client software for authentication and signing in web applications, cloud services, and desktop smart card environments.

The following components are included: [Nexus Personal Desktop App](#), [Nexus Personal Desktop Client](#), [Nexus Personal Mobile](#), [Nexus Personal SDK](#), and [Nexus Personal Messaging](#) that includes [Hermod](#) and [Nexus Push Service](#).

Nexus PRIME

Nexus PRIME is a product used for centralized identity and credential management. PRIME enables a consistent credential management process to ensure transparency and traceability in enabling identities for employees, student, and systems.

Nexus Service Station

Nexus Service Station is a self service kiosk used for registration of user information, photo capturing, signature capturing, encoding and printing of smart cards.

Third party products

Nexus offers third party products, such as card printers and hardware security modules (HSMs).

Nexus GO webshop

In Nexus GO webshop you can order everything you need to produce your own access cards, login cards and key fobs, such as plastic card printers, key fob encoders and identity carriers. You can also buy the card reader [Cidron](#), accessories to [Cidron](#) and request-to-exit buttons. We deliver to addresses in Europe.
