

Nexus Personal Desktop

For more information on the legacy product Nexus Personal Desktop:

> [Nexus Personal Desktop Client](#)

[Nexus Personal Desktop Client](#) is a smart card middleware integrating smart cards and security tokens and provides your users with intuitive two-factor authentication (2FA), digital signing, email encryption etc.

[Nexus Personal Desktop App](#) can provision and manage virtual smart cards, which can be used for Windows-related use cases, such as authentication to external resources, protection of data by secure encryption, and integrity through reliable signing.
