

Nexus Personal Messaging

[Nexus Personal Messaging](#) includes [Hermod](#) for authentication and signing and [Nexus Push Service](#) for managing push notifications to mobile apps. [Hermod](#) offers a business-oriented [REST API](#). The service is packaged as a Docker container for easy deployment and is highly scalable.

[Hermod](#) and [Nexus Push Service](#) are used by Nexus products but can also be separately integrated into third-party products that want to enable trusted identity authentication and signing.

News

2019-05-03

Nexus is proud to announce the availability of the Personal Messaging component Hermod version 2.3.5.

For more information, see [Release note Hermod 2.3.5](#).
