

Nexus Documentation Archive

[Nexus Documentation Archive](#) contains product documentation for older versions of Nexus products.

To read the latest documentation for the current product versions, see [Nexus Documentation](#).

Previous releases

Go to the following archives to find documentation for previous product releases:

- [Smart ID archive](#)
- [Smart ID Digital Access archive](#)
- [Smart ID Identity Manager archive](#)
- [Smart ID Physical Access archive](#)
- [Smart ID clients archive](#)
- [Smart ID Messaging archive](#)
- [Certificate Manager archive](#)
- [Nexus OCSP Responder archive](#)
- [Nexus Timestamp Server archive](#)
- [Card SDK archive](#)
- [About Nexus Documentation Archive](#)

Search in the archive

1. Enter a word in the search box in the top menu, e.g. "upgrade".
 - a. The search result shows only articles in the current published space.
2. Open Filter by SPACE and set Search archived spaces
 - a. The search result will include articles in the archived space and the current published space.
 - b. Articles in archived spaces start with the release version, e.g. "3.11 – Upgrade..."

You can also search for a specific version, go to the product version and see instructions there.
