

# Support

Most identity and security solutions from Swedish-owned Nexus Group are provided through a global network of highly qualified partners. Our partners provide first and second line support. If they cannot solve an issue, they pass the issue along to the Nexus support team.

## News

2018-11-16

### Changed Oracle Java support

As of January 2019, Oracle will end its public support for commercial users. This affects all customers with Java-based Nexus products. For more information, see [Java support](#).
